

Christopher Edward's.

My name is Chris Edward's, I am 39 years old, I started taking the Herbalife products on November 1st 2000, I wrote on the calendar this is the first day of the rest of my life, I had no idea how true that was going to be.

I was overweight feeling tired all the time and my energy levels were non existent. I started taking formula 1,2 and 3 plus the herbal beverage, (6 to 8 glasses per day) within the first week I lost 7lb and after 8 weeks I had lost 35lb and 6 inches from my waist.

In that time I also started to take Male Factor, Herballfeline, Xtra-Cal, Tang Kuei, RoseOx, Thermojetics Yellow and N R G Tablets.

The reason for this was because 19 years ago I was diagnosed with a Tumour of the Pituitary Gland which is found on the Brain Stem, after pioneering surgery the tumour was removed, but unfortunately I caught the brain virus Meningitis, this caused many complications which left me with a rear condition that makes the brain swell for some unexplained reason, this would lead to very violent headaches which would leave me with slurred speech,(similar to a mini stroke) I would not be able to stand because of the pain in my head. After the attack, which could last up to two days, it would leave me completely drained and I would then sleep for 48 hours, then it would take up to a week to recover properly, these attack's would occur 3 to 4 times a year.

Since taking these targeted products I have had only 1 attack in the last 12 months which lasted only hours instead of days, and my recovery was also within hours.

The only way at the time to remove the Tumour was also to take away most of the Pituitary Gland, which also meant that two thirds of my immune system was taken away, which resulted in me being susceptible to infection especially to colds and flu, I always seemed to have one or the other about every two months, since taking the products especially RoseOx and Tang Kuei, I have only had the flu once in the last 12 months.

My weight loss is now 42lb and 6 1/2 inches from my waist, my energy levels have risen dramatically and I no longer feel tired, this I feel is all down to the excellent nutrition these products provide your body with daily.

I still take all the above products daily,also having 1 or 2 shakes a day to maintain my weight and to support my health improvement.  
Herbalife has certainly changed my life for the better.

7th November 2001.
